## Electronic Prisoner Control System

- ⚡ 50,000 Volts of Immobilizing Power
- ⚡ High Security Key
- ⚡ Audible Warning Tone
- ⚡ 150 Foot Range
- ⚡ Medically Tested
- ⚡ Reduced Liability

# BAND-IT

## Electronic Prisoner Control System

## Specifications

50,000 Volts	Re-Chargable Battery
8 Second Cycle	Secure to 8 Bodily Points
Audible Warning Tone	Medically Tested Circuitry
High Security Key	2 Year Warranty

The **Band-It Transport & Courtroom Control System** is designed for greater control of subjects in the court room and during transportation. The Band-It System stops escapes, stops violent behavior, and allows officers to gain control of violent individuals by causing muscle immobilization. The system consists of a stun pack, a wireless transmitter, and several carriers to hold the unit onto the subject. Each system is shipped complete with everything needed to add an extra layer of safety to the court, the public, and law enforcement personnel.

The Band-It System works on the principle of high voltage, low amperage, specific frequency, and pulse technology. The stun pack can be placed onto the body in 8 different locations. It applies 50,000 volts for an 8 second stun cycle interfering with the nervous system, causing muscle immobilization. This system has been medically tested and does not cause injury.

The presence of the Band-It by itself is a great psychological deterrent, but activation of the system is a game changer.

## Facts

- ✓ The **StunTronics** circuit design has been successfully utilized since 1987
- ✓ **StunTronics** has been medically tested by major universities
- ✓ **StunTronics** circuitry has a 30 plus year record of safety
- ✓ The Band-It System has been activated on tens of thousands of individuals
- ✓ The **StunTronics** mandated Standardized Training System has been court tested
- ✓ Over 1500 Certified Instructors
- ✓ Over 80,000 Certified Users
- ✓ The Band-It System rarely needs to be activated on subjects during field use

## Reduce Liability

Using the Band-It System will reduce your agencies liability. There will be fewer Use of Force situations resulting in fewer injuries to staff and subject. The cost savings then multiply with reduced medical costs, disability claims, Workers Compensation claims, overtime, and fewer lawsuits.
