- ✓ 50,000 Volts of Immobilizing Power
- ✓ Capture (Concave) or Protect (Convex)
- ✓ Standard 36" x 20" or Large 48" x 24"
 - ✓ Trigger Activated
 - ✓ Modular Design
- ✓ Non-Electric Version Available
- ✓ Reduced Liability

ICE-Shield

Electronic Immobilization Riot Shield

The ICE Shield is the ultimate tool for cell extractions, hostile inmate confrontations, and crowd control. StunTronics has combined one of the oldest defensive tools in the history of mankind with electronics. With a push of a button the ICE Shield quickly transforms into a powerhouse of less-lethal force. The ICE Shield has an audible and visual display of electric power that provides a psychological deterrent and less-lethal immobilization.

The ICE Shield is constructed of highly durable / impact resistant .25 inch thick poly-carbonate, with 50,000 volts of electrical power. There are two sizes available, the Standard Shield is 36" x 20" and the Large is 48" x 24". There are also two styles available; the Capture (concave) is designed for control of a subject. The Protect Style (convex) is similar to a conventional riot shield providing protection and deflection.

Reduce Liability

Using the ICE Shield System will reduce your agencies liability. There will be fewer Use of Force situations resulting in fewer injuries to staff and subject. The cost savings then multiply with reduced medical costs, disability claims, Workers Compensation claims, overtime, and fewer lawsuits.

Specifications

	Standard	Large
Dimensions	36" x 20"	48" x 24"
Weight	9.5 lbs	12.5 lbs
Styles	Capture (convex) or Protect (concave)	
Composition	1/4" Clear Polycarbonate	
Voltage	50,000 Volts	
Operating Time	30 minutes/ 1800 seconds	
Safety	Medically Tested	

Available in Non-Electric Versions

Facts

- ✓ The **StunTronics** circuit design has been successfully utilized since 1987
- ✓ **StunTronics** has been medically tested by major universities
- ✓ **StunTronics** circuitry has a 30 plus year record of safety
- ✓ The ICE Shield System has been activated on tens of thousands of individuals
- ✓ **StunTronics** mandated Standardized Training System has been court tested
- ✓ Over 1500 Certified Instructors
- ✓ Over 80,000 Certified Users
- ✓ The ICE Shield System rarely needs to be activated on subjects during field use
